1980

Empress VI Tina

This year has been virtually indescribable for me. Three years ago, knowing little about the boundless diversity and beauty of this community, I met two of the warmest and most unselfish people, who would then become my introduction to all of this lovely insanity called "Empress". Mark and Ray if the coffee cups could talk.

1979 stands out as one of the most vivid years in my life. Each person I have met and shared many working and partying hours with has made every minute worth it. I thank you all for this.

Bob V, my Emperor, the Eagle in my year that constantly soared above any negativity to keep the dream of the Rainbow alive. A dream that succeeded in reaching not only our community but the entire state. Thank you Bob for believing in me. I love you.

So many times during the year I'd gripe about one thing or the other. I was kept together by my lover Billy I. The solid structure in my life that kept me thinking clearly. I can't thank you enough Billy.

As this reign comes to an end I am thankful for the opportunity to experience the good as well as the petty. For it has helped me grow. These experiences have made my year unforgettable. Sharing them with you was best of all.

Many Many Thanks . . .
Tina VI

Emperor V Bob

The end of the Rainbow is quickly approaching and in looking back I remember why it was chosen as our symbol. We saw it as a combination of colors like the court system is of people. We have stimulated combination without trying to destroy the individual colors. This isn't unique to Tina and me. I feel all of us who hold elected offices try to do this in our different ways. Empress VII of Santa Rosa, Brandi, expressed it thus: "You meet people who praise you, people who support you, and then, people who damn you. But still you hold firm on your beliefs and your ideas. You have to be strong, supportive, a believer and most of all understanding. You work with people who have great concern for their fellow man and people who care only about themselves, and then try to draw them together." The working, the playing, and the bringing together for the betterment of ourselves and communities has been for me the Rainbow. The happy memories, the good feelings and the nice people are the pot of gold at the end of this Rainbow. Thank you all for this.

carl berry has given, stimulated and supported my dream of being Emperor over his own desire for similar office. I hope I haven't disappointed him.

Support has come from many people but a very important source has been from my Empress. My year would not have been as incredible without Tina beside me. The best to you next year with much love and respect always.

Many years prior to my coronation as Emperor, I used to listen to a friend talk about what the court could do for the community. I felt someday he would be Emperor, but never thinking I would. This friend is the Emperor of San Francisco, Chuck Demmon. He and Emperor John of Modesto have served as examples for me.

There are many more who are as important or more but I don't have the space.

Last but not least "Thank You" to the few people who tried everything within their powers to make this year as miserable as possible for me. I thank them so very much because without the bad we do not appreciate the good. Thanks for my pot of gold.

Love H.I.M. V Bob
